

REXEL environmental CHARTER

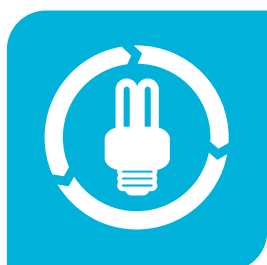

Our branch is committed to the environment and carries out the following actions:

WITH CUSTOMERS

- 1 We emphasise products that contribute to energy-saving (in a dedicated space and/or catalogue, promotion or marketing materials...)
- 2 We offer a specific range of solutions that make use of renewable energy
- 3 Every year we organise several promotion days that are dedicated to equipment that contributes to energy-saving or the use of renewable energy

IN THE BRANCH

- 4 Every year, all of our employees take part in several information or training days about products that contribute to energy-saving or the use of renewable energy
- 5 Branch internal lighting and electrical equipment are low energy consumption products

WASTE AND RECYCLING SORTING

- 6 We separate cardboard, paper, catalogues and magazines from other waste for recycling
- 7 We collect fluorescent tubes and other used lighting sources for recycling
- 8 We collect other waste from electrical and electronic equipment for recycling
- 9 We collect used batteries for recycling
- 10 Used ink cartridges and toner are returned to manufacturers
